According to the present reject, a total of 20 shipments of the division

wont to the Cottbus district. It can be assumed that all s imments, except for the 3 for Peitz and Lieberose, went to the area south of Cottbus, in which

the exercise of the division is believed to have started. The ship outs from Dornau and Frankfurt/Oder tend to indicate that units of the 71st Light last. Brig and the 32d AAA Div also participated in the exercise, which probably developed northward across the Lieberose training grounds. The exercise probably terminated in the Dookov-Granew area, similar to the preceding emergine of the 7th

Ods Necs Div. This accomption is supported by the observation of rature observation this accomption is supported from 5 to 3/9 Setabor.
